Work experience

Marketplace application

02/2023-03/2023

Student project

Marketplace application with sign up, and login functionalities, as well as various functions allowing users to buy, edit, add and delete products. Built using the React framework.

Shop Section for Events Landing page

09/2022-10/2022

Student project

A dynamic landing page, allowing the user to get informed about upcoming events, add to cart, and buy tickets through the website. The ecommerce functionality is implemented using JavaScript.

Landing Page for Educational Company

06/2022-07/2022

Student project

A static webpage designed to inform the user of the upcoming events hosted by the company. Built using HTML, CSS and Bootstrap.
